INTRODUCTION

Scope and Purpose of Report

As required by Section 240.118, Florida Statutes, this report provides feedback to districts and high schools on their graduates' performance on entry-level placement tests at Florida public community colleges and universities. Every freshman in a public community college or university in Florida must demonstrate certain basic skills before beginning college-level courses. Students who achieve minimum scores on the Elementary Algebra, Reading Comprehension, and Sentence Skills portions of the Florida College Placement Test (CPT) are considered "ready" for college-level math, reading, and writing, respectively. Colleges may exempt students from these tests if the students score high enough on the SAT or ACT. Minimum scores are established by State Board of Education rule 6A-10.0315. Freshmen who do not achieve minimum scores on the CPT, SAT or ACT must take remedial classes before they begin college-level work.

This report includes students who:

- graduated during the 1999-2000 school year with a standard diploma from a Florida public high school
and
- entered a Florida public university or community college as degree-seeking students in 2000-2001.

These students represent about half of the 1999-2000 class of public high school graduates. The report **does not include:**

- graduates who do not go to college,
- graduates who attend private or out-of-state colleges,
- transfer students,
- casual or non-degree-seeking students,
- students who take time off between high school and college,
- GED or non-standard diploma recipients, and
- private high school graduates.

History of the Placement Testing and Feedback Program

In the first years of the statewide testing program, colleges used different tests and different passing scores. Starting with the 1998-99 testing year, colleges were required to use the same tests and scores. In fall 2000, the ACT and SAT scores required to be considered "college-ready" were increased in order to align them with the required scores on the College Placement Test. **Because of these changes, readers should use caution in interpreting changes from one year to the next.** For the current report, results were calculated two ways: first, the percent of students determined "ready" using the new exemption scores; and second, the percent "ready" if students with scores between the old and new ACT/SAT minimums were counted ready.

Following is a brief timeline of the development of the statewide placement test and feedback program:

- 1983 — Legislature establishes common placement testing program
- 1990 — Feedback report to high schools begins
- 1995 — Florida College Placement Test introduced at some colleges
- 1996 — Florida College Placement Test required at all colleges
- 1996 — Placement test cutoff scores raised at many colleges
- 1997 — Placement test cutoff scores raised at remaining colleges, becoming uniform across state in July 1997
- 2000 — First feedback to districts and high schools based on uniform statewide Florida College Placement Test cutoff scores
- 2000 — Starting in fall 2000, ACT and SAT score cutoffs increase

Current Remedial Cutoff Scores

Scores are established in State Board of Education rule 6A-10.0315. For students taking the Florida College Placement Test in 2000-2001, cutoff scores for college-level placement were:

Elementary Algebra	72
Reading Comprehension	83
Sentence Skills	83

Colleges did not have to give the CPT to students who scored at or above the following scores on college admissions tests:

SAT-I, The College Board

Verbal	440 (counts for both Reading and Sentence Skills)
Math	440

Enhanced ACT, American College Testing Program

Reading	18
English	17
Math	19

Although not required to do so, some colleges may also give the College Placement Tests to certain students with scores above these levels.

NOTE: Starting with the fall 2000 semester, the SAT and ACT scores required to be considered “college-ready” (exempt from taking the CPT) changed. The old scores required for exemption were:

SAT-I, The College Board

Verbal	420 (counts for both Reading and Sentence Skills)
Math	440

Enhanced ACT, American College Testing Program

Reading	16
English	16
Math	16

EXECUTIVE SUMMARY

CHANGES IN THE CURRENT YEAR'S REPORT

The *Readiness for College Report* gives the percentages of students who pass the Elementary Algebra (Math), Reading Comprehension (Reading), and Sentence Skills (Writing) components of the College Placement Test (CPT).

Colleges may, but are not required to, exempt from testing students who score above certain levels on the ACT or SAT. These students are also reported as “ready.”

Note that, while the minimum CPT scores remained constant, the ACT or SAT scores required to be exempt from taking the CPT increased for the cohort of students in this report compared to previous years. Starting in fall 2000, the State Board of Education adjusted these scores to better align with the College Placement Test and the level of preparation required for college-level work. The minimum ACT score increased from 16 to 19 for Math, from 16 to 18 for Reading, and from 16 to 17 for Writing. The minimum SAT Verbal score to be exempted from both the Reading and Writing portions of the CPT increased from 420 to 440. The minimum SAT Math score did not change.

As a result of these changes, the percentage of students counted “ready” in each subject is lower than in last year’s report.

However, if students with borderline ACT/SAT scores – at or above the old levels but below the new ones – were included in the totals, the percent “ready” would be higher than in last year’s report. The charts on the following pages show an increasing trend for the last four years, assuming that students with ACT/SAT scores between the old and new cutoff levels were included.

INCREASES IN NUMBERS AND PERCENTAGES OF GRADUATES GOING ON TO FLORIDA PUBLIC HIGHER EDUCATION

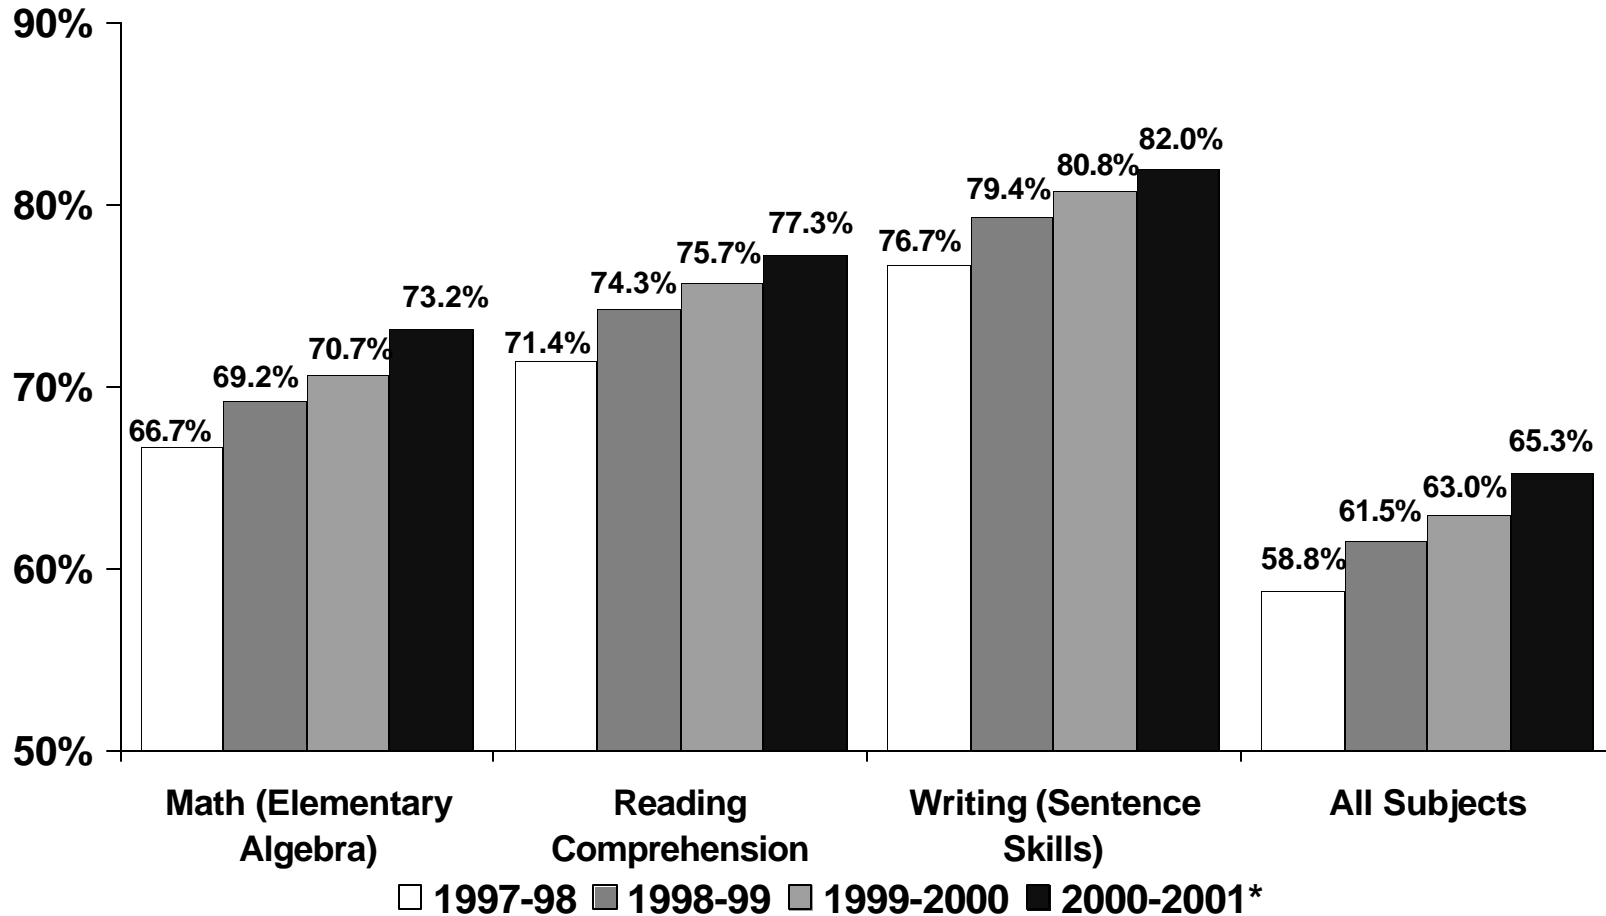

Of the 102,879 recipients of standard diplomas in Florida public high schools in 1999-2000, 54,378, or 52.9%, enrolled as degree-seeking students at a Florida public university or community college during the 2000-2001 academic year. Of these, 31,037, or 30.2% of standard diploma graduates, were last enrolled in a community college and 23,341, or 22.7% of graduates, were last enrolled in a state university. (1,259 graduates enrolled in both systems during the 2000-2001 year; this report counts them at the last institution they entered.) By comparison, in last year's report, 51.6% of 1998-99 graduates were reported to have enrolled in public postsecondary institutions in 1999-2000, with 30.3% in community colleges and 21.3% in state universities.

STATEWIDE RESULTS WITH AND WITHOUT BORDERLINE ACT/SAT SCORES INCLUDED

- Of the graduates tested in all three areas, 32,063 or 60.5% were considered "ready" in all three subject areas. This means that 39.5% needed remedial classes in one or more areas.

- However, if students with ACT/SAT scores between the old and new cutoff levels were included, 65.3% would have been counted “ready” in all areas. This would have represented the third annual increase in the percentage of students testing “ready” for college in all subjects.
- Fewer test-takers were considered "ready" in math than in reading or writing. There were 67.4% "ready" in math, 74.4% "ready" in reading, and 80.2% "ready" in writing. (With borderline ACT/SAT scores included, the percentages would be 73.2%, 77.3% and 82%, respectively.)
- There were 40.8% of black students "ready" in all three areas, 49.2% of Hispanic students, 68% of Asian students, and 68.1% of white students. (With the borderline ACT/SAT scores, these percentages would be 44.8%, 54.3%, 71.6%, and 73.1%.)
- There were 62.6% of men ready in all three areas, and 58.9% of women (66.5% and 64.4% with borderline ACT/SAT scores included). Women, however, were more likely to pass the writing test than men.
- Of graduates who entered state universities, which have minimum admission requirements, 93.2% were ready for college in all three areas (93.9% with borderline ACT/SAT scores included). Of graduates who entered community colleges, which do not have admission requirements other than a high school diploma, 34.7% were ready for college in all three areas (42.6% with borderline ACT/SAT scores included).

STUDENTS TESTED "READY" FOR COLLEGE BY SUBJECT AREA, INCLUDING STUDENTS WITH ACT/SAT SCORES BETWEEN THE OLD AND NEW CUTOFF LEVELS

*Includes students with ACT/SAT scores above the minimums for the previous year but below current requirements.

STUDENTS TESTED "READY" FOR COLLEGE BY RACE/ETHNICITY, INCLUDING STUDENTS WITH ACT/SAT SCORES BETWEEN THE OLD AND NEW CUTOFF LEVELS

*Includes students with ACT/SAT scores above the minimums for the previous year but below current requirements.
